Date

Dear MP Ryan Willams

I am an active and dedicated listener to 99.3 County FM (CJPE), located in your riding. This station provides critical local news, information and entertainment to me which I cannot access through any other medium. I am writing to ask that you support this very important station that serves this community and fights against disinformation. You can do so by

- 1) Increasing the Local Journalism Initiative to \$20 million a year and making it permanent.**
- 2) Establishing a 25 million dollar annual Community Broadcasting Fund to be distributed among all community radio stations, including this one.**

Without access to my local community radio station, I would not be able to stay connected to the community that I live in and love.

Thank you;
